

Seamless Innovation for Property Managers

Digital applications available to create, review, share, and vote on in one place.

Board packages are going digital!

The Avon House is pleased to partner with **BoardPackager** to eliminate the need for cumbersome paper board packages.

BoardPackager is a completely mobile, cloud-based, bank-protocol secure system that allows the building management and board members to review applications digitally.

KEY FEATURES:

Paperless

A 100% green system steering a paper-laden industry towards paperless transactions.

Secure

BoardPackager uses a bank-protocol secure system for all documents and information.

E-store and E-payments

Accept e-payments for building documents, credit checks, security deposits, and application fees.

Easy-to-use system

It's simple to receive and process board packages. The Board receives notification when it's time for them to review.

Communication

BoardPackager facilitates fluid communication with agents, lawyers, boards, and applicants. Always have a record of correspondence.

BoardPackager is being deployed this year!
